The Nigerian Women Association of Georgia (NWAG)

ANNUAL REPORT – 2026

Dear Friends and Supporters of GBI Orphanage and Children Centre,

Greetings from the management, staff and children of Goddy Becca and Ifelunwa (GBI) Orphanage and Children Centre, Ebedei, Ukwuani Local Government Area, Delta State.
On behalf of the children and management of the Centre, we sincerely appreciate the Nigerian Women Association of Georgia (NWAG) for the continued support and goodwill extended to our children and the work of the Centre.
Your support has made a meaningful difference in the lives of the children in our care, particularly in the areas of feeding and medical care. We remain deeply grateful for your commitment to the wellbeing and development of these children.

NUMBER OF CHILDREN

GBI Orphanage and Children Centre is currently home to fourteen (14) children of different ages.
Our responsibility goes beyond providing shelter. We strive to ensure that every child receives the basic necessities required for healthy growth and development, including food, clothing, healthcare, education, emotional support and a safe family-like environment.
Over the years, the number of children in our care has reduced as some of the older children have grown into adulthood and moved on to pursue their education, careers and independent lives. We remain committed to supporting each child until he or she is adequately prepared for responsible adulthood.

EDUCATION

Education remains one of the major pillars of our mission.
All fourteen (14) children currently in the Centre are enrolled in school and are receiving formal education appropriate to their various ages and levels.
We are particularly encouraged by the progress of our older children. Three (3) of our children sat for the recently conducted West African Senior School Certificate Examination (WASSCE/WAEC), marking an important milestone in their educational journey.
We remain committed to ensuring that every child under our care has the opportunity to acquire quality education and the skills necessary to become self-reliant and productive members of society.

FEEDING AND NUTRITION

The provision of adequate and nutritious food remains an essential part of the Centre's daily responsibilities.
We sincerely acknowledge the contribution of NWAG, whose support has assisted significantly with the feeding of the children.
This assistance has helped us meet an important and recurring need and has provided greater stability in our efforts to ensure that the children receive regular and nutritious meals.
We also continue to explore sustainable ways of supporting food production and reducing the financial burden associated with feeding the children.

MEDICAL CARE

The health and wellbeing of the children remain a major priority.
The support received from NWAG has also assisted the Centre in meeting medical needs, including healthcare requirements that arise from time to time.
This support is particularly valuable because healthcare is a continuous responsibility, and ensuring that the children have access to appropriate medical attention is essential to their growth, education and overall wellbeing.
We appreciate NWAG for helping us respond to these needs and for contributing to the healthier lives of the children.

CURRENT PROJECT – RENOVATION OF THE ORPHANAGE

One of the most urgent needs currently facing the Centre is the renovation of the orphanage building.
The facility has served the Centre and its children for many years and has naturally become old and increasingly in need of substantial renovation and rehabilitation.
The proposed renovation will focus on restoring and improving the living environment of the children, including the building's structural condition, internal spaces, sanitation facilities, electrical and plumbing installations, roofing and other essential areas requiring attention.
Our objective is to provide the children with a safe, comfortable, healthy and dignified home environment that reflects the importance of the work being done at GBI. We are therefore appealing to NWAG, our friends, partners, well-wishers and other good-spirited individuals and organisations to support us in raising the resources required to undertake this important project.
Our immediate priority is to renovate the existing orphanage facility and make it safer, more functional and more comfortable for the children.

OUR CONTINUING COMMITMENT

GBI Orphanage and Children Centre continues to rely significantly on the generosity of individuals, organisations and development partners who believe in giving vulnerable children an opportunity to grow, learn and become responsible adults.
Our work is not limited to providing temporary care. We seek to give every child: a safe and loving home; adequate food and nutrition; access to healthcare; quality education; emotional and social support; life skills and opportunities for self-reliance; and hope for a productive and independent future. The journey is ongoing, and there is still much to be done.

A WORD OF APPRECIATION TO NWAG

We wish to express our profound appreciation to the Nigerian Women Association of Georgia (NWAG) for standing with GBI Orphanage and Children Centre. Your support towards feeding and medical care has provided direct and measurable assistance to the children. Beyond the financial value of the support, your intervention reminds the children that there are people beyond the walls of the Centre who care about their future. We sincerely hope that this partnership will continue and grow, particularly as we embark on the urgent renovation of the orphanage facility.

CONCLUSION

As we look towards the future, our greatest aspiration is to see every child who passes through GBI become educated, confident, self-reliant and able to make a positive contribution to society. We remain grateful for every individual and organisation that has contributed to this journey. We respectfully invite NWAG and our other partners and supporters to continue walking with us as we work to provide a better home, better opportunities and a brighter future for the children. Together, we can continue giving hope and freedom to vulnerable children.

With sincere appreciation,

Engr. Amaliri G. Ugochukwu
