2026 NWAG REPORT FOR HOPE MOTHERLESS BABIES HOME INT`L

Dear NWAG,

We want to express our appreciation for your commitment and support to our vision of taking care of orphans and vulnerable children. Our children, staff, Management Board and entire Hope Motherless Babies Home Int'l family, say a big thank you. May God bless you abundantly.

We currently have 75 children and adults in our Home ranging from ages 0 to 45 years. We also have 25 other sponsored children and adults currently not resident in the Home but who are still cared for by our Institution, while two more children are still in the pipeline.

PROJECT

For the first time, we attempted a farm project. We invested in raising 100 broilers. Four of our grown up children did the work mainly, from the start (cleaning up the room space we used) to the time the birds matured at six (6) weeks and were sold under the supervision of an experienced farm manager.

The project was executed between December 2025 and January 2026. Few of the birds died, the children ate some and eighty eight got to the market. We invested a little above half of the money you donated in November, 2025. At the end, we had a profit of over fifty four thousand naira. It was a trial project, but thanks be to God, it was successful.

However, we could not continue with another round when the children resumed School in January and the trusted farm manager was no longer available too. The remaining money was used to pay 2nd Term School fees of our children while the money invested and the profit was used to buy foodstuffs especially beans and guinea corn that were in season.

DIVINE ESCAPE

In the night of May 30/31, this year, the State Commissioner of Police came with his entourage to our Orphanage Home at Idofian to evacuate all our children and the staff based on an intelligence report that bandits were coming to strike our Home that night. In that panic and rush, under compulsion, all the children, staff and all others in the camp were moved out of the premises and later settled at our Church, The Word Assembly headquarters premises in Ilorin township. It was not an easy situation at all. The Commissioner of Police sent Police men to guard our Church headquarters in the morning of 31st May during Sunday morning service because there was an insinuation that even the headquarters Church was a target. We have remained in the Church premises till now. The place we were given to stay has no space for farming activities. It is difficult to plan any project right now. We

are praying that we would be permitted to go back to our Home as soon as security in Kwara State and especially in our location improves.

PROGRESS REPORT

In addition to five of our children who were admitted into University of Ilorin last session, another four completed Senior Secondary School (SSS3) and wrote Unified Tertiary Matriculation Examination (UTME). We are processing their admission into different tertiary institutions.

Three(3) of our children started Nursery 1, two(2) were promoted to Primary 1, while three(3) gained admission into Junior Secondary School 1 (JSS1).

One of our children with club feet had started walking properly on his soles. We enjoyed the service of a Non-Governmental Organisation, by name Positive Care Dev. Foundation(PDCF) in collaboration with University of Ilorin Teaching Hospital(UITH) from June 27, 2024 to April 27, 2026.

Yours sincerely,

Christie Oladunni Omolehin

Executive Director,

Hope Motherless Babies Home Int'l
