Resident children: 36
Non resident children: 80+
(Better Health for Rural Children Programme)

Warmest greetings from your extended family at Susana Homes!

November is almost here and our excitement has continued to mount! I write in hope that you are all doing well and particularly proud of the work you have done this year!

As has been our practice over the years, your annual donations go directly to supplementing the protein intake of our children.

Much of the donation in the last 4 years have gone to purchasing eggs, milk, and Okpa.

However, and with God's blessings, Susana Homes will once again have its own eggs! No more buying of eggs!

Our hens will start laying eggs by the end of this year 🐓🐓🐓🐓🐓🐓🐓🐓🐓🐓🐓🐓Yes, by the end of this year! Thanks to the 2025 donation, Susana Homes will once again be producer of eggs!

Just the thought of this is exhilarating!

The 2026 donation will no doubt; help us serve even more children as our outreach programmes have continued to grow!

Better Health for Rural children, Feed My Flock, and the Vitamin programme have continued to serve community children in addition to the current 36 resident children of Susana Homes!

We could not ask for better partners in the service of our land!

We continue to hold you up in prayers as individuals and as a group of God's foot soldiers!

May the rest of your year be joyful and most rewarding!

Thankfully yours,
Chi
