To: The President

THE CARE PEOPLE FOUNDATION ANNUAL REPORT TO NIGERIAN WOMEN ASSOCIATION OF GEORGIA (NWAG)

The Care People Foundation Orphanage/Motherless home, is a charitable, non-governmental organization that caters for the orphans, motherless, physically challenged, needy and the less privileged in our society. The foundation was established in 1999 and registered with the Corporate Affairs Commission.

For this year (2026), the Home houses 41 children (15 males & 26 females), ranging from ages one(1) - twenty-five(25), who are being taken care of and sponsored by the foundation.

We sendforth 2(two) of our children that finished from the university and were given job and accommodation because of their good grades. 6(two) were reunited to their families successfully.

Thousands of widows have been assisted and a new project called G-CAP Initiative (Girl -Child abandonment prevention initiative) is also on to take care of teenagers/ladies with unwanted pregnancy as a result of rape, molestation and abuse.

We have greatly benefited from the yearly funds coming from The Nigerian Women Association of Georgia(NWAG).

The funds which usually comes in towards the end of the year has always been a blessing, as it comes in at the right time.

For the year 2025, The NWAG fund was specifically used for the following:

- Our transformer was vandalized some years back, though we requested for another but was asked to pay alot of money. However someone bought a brand new transformer for the home but ask us to do the installation ourselves. With the money given to us plus some others, we've been able to install the transformer. Thank God we now have our light back.
- Buying foodstuffs (groceries) and snacks for the children
- Stationeries and textbooks as they resume back to School.
- Camp programme for the children where we had talk on career and sex matters.

The Foundation is indeed grateful for the continuous support and encouragement from the Nigerian Women Association of Georgia, we do say, thank you.

AREAS OF DEVELOPMENT

The foundation has continued to engage in taking care of the less privileged, but with more focus on females.

The ending of last year (2025) was more challenging than last year, however we were able to sail through. Your organization have been of great encouragement and support particularly at junctions we almost got stuck and for this we truly appreciate you.

Thanks and may God bless you all.

Yours faithfully,
Barr. Favour Tioluwani
Vice-President
